DETAILED ACTION

Allowable Subject Matter

1. Claims 65- 81 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior arts Wharton et al (5,8931,664), Treyz (6,587,835), and Mosciatti (4,828,406), fail to teach a communication system, comprising: a hand-held wireless controller comprising a memory storing a plurality of command codes for use in commanding operations of a plurality of types and makes of consumer appliances; a first transmitter for transmitting signals representative of command codes directly to one or more of the plurality of consumer appliances; a receiver for receiving data to be printed; a display module comprising a touch panel through which a user selects at least one of the plurality of command codes to transmit to the one or more of the plurality of consumer appliances via the first transmitter and **for displaying an image representative of the data to be printed; and a second transmitter for transmitting data; a printer; a gateway device; and a base station in communication with the printer and the gateway device, the base station comprising a receiver for receiving the data transmitted via the hand-held wireless device and a controller for routing the data, the data being routed to the printer when the print controller determines that the data comprises the data to be printed otherwise routing the data to the gateway device.**

Art Unit: 2673

The closest prior art, Wharton et al (5,8931,664), Treyz (6,587,835), and Mosciatti (4,828,406), either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
